## Office Closure for Christmas and New Year

*Our team at PE Global wishes you and your loved ones a very Merry Christmas and a New Year filled with peace, success, and new opportunities.*

## National Innovation Visa 2025: Your Gateway to Australia for Exceptional Talent

Australia's National Innovation Visa (Subclass 858), updated in 2025, is designed to attract highly skilled global professionals and innovators who can make a significant impact in research, technology, entrepreneurship, and other high-growth industries. Unlike traditional skilled migration pathways, this visa prioritises internationally recognised achievements, proven leadership, and the potential to contribute to Australia's innovation ecosystem.

Applicants must secure a nominator, which can be an Australian citizen, permanent resident, or a recognised organisation in their field, and submit an Expression of Interest. Successful candidates receive permanent residency immediately with full work, study, and travel rights, and can also sponsor eligible family members.

With competition high and policy settings evolving, professional guidance is essential to prepare a strong application and maximise your chances of success. Our experienced migration team can help you understand eligibility, compile evidence of your achievements, and guide you through every step of the process, making your move to Australia smooth and secure. Please get in touch with us to learn more about this exciting opportunity.
